**The Healing Power of Sound**

with Rev. Christine Villani

Fee: \$25

Through discussion and several meditations we will explore the power of sound therapy for developing optimal physical health, psychological well-being and spiritual elevation.

**Our discussion will include:**

How sound therapy works

Understanding vibrations

The effects of sound -- including chanting, leading to our exploration of the work of Michael Tyrell, creator of Wholetones.

Additionally- there will be several sound meditations at various points during the workshop.
