3:00 – 5:00 PM

Intuition on Demand

with Lisa Ko

Fee: \$30

Lisa will share her personal techniques in this 2-hour workshop. She will give an overview of the technique and explain why each step in the technique is important. How the steps in the process connect together and solves the following problems with intuition. How to make your intuition happen when you want, on what you want, how to trust it and finally how to get detailed information that is useful.

The workshop will continue with a guided intuition exercise using the technique with her guidance to help you find your intuitive messages that you are receiving but don't know it. She will use her intuition expertise to help you personally decode your personal intuitive messages. This is where she will drill down and work to dig out what is your real intuition and what is not.
