Rev. Askildsen entered the spiritual path at age 19 and has been involved in the study of Metaphysics and the practice of meditation for over 40 years.

In his quest for a direct experience with the GOD CONSCIOUSNESS, Rev. Askildsen was brought to an organization known as the LIGHTBEARERS and undertook the study and practice of "THE SCIENCE OF BEING" thru the contact with "UNIVERSAL LIFE ENERGY"

In his search for truth in Religion and Spirituality, Rev. Askildsen explored the foundations and practices of ESOTERIC CHRISTIANITY, TIBETAN & ZEN BUDDHISM.

His interest in Science and Agriculture led him to the works of the Austrian Scientist and Philosopher RUDOLF STEINER in his use of the SCIENTIFIC METHOD to explore the SPIRITUAL WORLD.

Rev. Askildsen's mission is: "THE SPIRITUAL UPLIFTMENT OF HUMANITY"
