Introduction to a course that will be offered in the Fall of 2018 by Rev. Gregory J. Askildsen and Assistant Minister Kathleen James Askildsen. Through a process of structured meditations on potent spiritual phrases, students will be exposed to the internal spiritual development of Jacob's Ladder. This course will be taught in conjunction with a development circle of healing and spiritual unfoldment geared towards reaching the higher spiritual realms.

“The story of Jacob's Ladder is an ancient allegorical biblical tale, describing the alchemical process of reaching complete Gnosis, or what some may call Sainthood, Buddhahood or enlightenment. A symbolic ladder that we all may climb if we wish to reach the spiritual heights of the divine in the heavens while we are encased in physical matter here on earth.”
