SCAG & SCAG GIANT-VAC RETURNABLE CRATE AGREEMENT

All SCAG & SCAG GIANT-VAC dealers need to fully understand the logistics and dealer responsibilities with respect to the returnable crate program.

This program eliminates the waste and cost of having to break down and haul off wooden crates.

The program is simple:

-Crates will be picked up at your dealership when you have gone on-line (wmpcrates.com) and notified WMP that you have at least **6 CRATES** to pick up.

NOTE: You can combine crates with other manufacturers that utilize the same crate company to meet the minimum 6 crate requirement.

Dealers are financially responsible for these crates once they arrive at your dealership. If they are lost, stolen, or discarded, dealer will be billed \$450.00 for crate replacement costs.

Complete crate user guide is available from TOP Equipment or can be downloaded at www.scagtech.com.

Please sign below to confirm that you understand and agree to adhere to the SCAG & SCAG-GIANT VAC returnable crate program. This form must be signed by dealer owner.
