

RISE MODEL

The RISE Model for Self-Evaluation is a tool that structures and facilitates a process of personal introspection.

By addressing a series of stems aligned with Bloom's Taxonomy, students are prompted to use higher order thinking skills to thoughtfully consider their contribution to a course and voice future goals and objectives.

Visit www.RISEModel.com for licensing and implementation information.

ELEVATE

Raise to a higher degree or purpose in FUTURE iterations

EXAMPLE STEMS:

*How will you approach similar situations in the future?
How does this inform your personal and professional goals?*

SUGGEST

Introduce ideas for improvement of CURRENT iteration

EXAMPLE STEMS:

*How could you improve your performance or contribution?
What if you had more time?*

INQUIRE

Seek information and provide ideas through questioning

EXAMPLE STEMS:

*What do you need to revisit to master the material?
What resources are available to you?*

REFLECT

Recall, ponder, and articulate

EXAMPLE STEMS:

How did your attitude, logic, and behaviors influence your performance or contribution? What worked? What didn't?
