

SHADY HOLLOW ASSISTED RIDING

How you can help...

Help Care for a Horse at Shady Hollow

To take care of just one horse for a week can easily cost \$150-\$250. All of our horses are grain fed twice a day. They are given hay three times a day. Stalls are cleaned daily as well as paddocks. Each horse has their own private stall. To conserve money we use shredded newspaper in our stalls. Besides being more economical than straw, newspaper is also more absorbent and odor reducing. Manure is spread daily in our fields and pastures to help produce healthy crops of soy beans and corn. Our horses also receive regular chiropractic adjustments, yearly visits from the dentist as well as all routine veterinary checkups. We have approximately 25 horses at SHAR. Please consider sponsoring one of our equine friends.

There are 3 barns on the property each with stalls, water, storage and hay lofts. There is a workshop for maintenance on equipment, a pavilion for storage as well as events and lighted indoor and outdoor riding arenas.
