

ALREADY DONE

Words & Music by Tom Demaree

Well I'd been waiting for my healing
For such a long, long time
'Till You gave me revelation and
Your Word renewed my mind
It's already done
Oh it's already done
Way back on Calvary
You paid the price that makes me free
It's already done

Well I'd been waiting for deliverance
From the darkness of my youth
Now I know Your blood releases me
And that's the Gospel Truth
It's already done
Oh it's already done
Way back on Calvary
You paid the price that makes me free
It's already done

Well I will stand in faith
Reach up and grab Your grace
And I will not back down
For doubt is all around
The devil has no hold
My faith has made me bold
I am a blood washed son
My will and Yours are one

And it's already
Already
Already done...

Well I am a new creation
Old things are passed away
I walk in strength and victory
And that's the way I'll stay
It's already done
Oh it's already done
Way back on Calvary
You paid the price that makes me free
It's already done
