

WHEN I AM STILL

Words & Music by Tom Demaree

When everything is quiet
When everything is still
That is when my heart can hear You
You woo me with Your mercy
You woo me with Your love
You embrace me in Your Presence

In the stillness of the night I hear You whisper
In the morning light I hear You call my name
When I begin to listen
That's when I begin to hear
When I am still, I know that You are God

When everything is quiet
When everything is still
That is when my heart can hear You
You woo me with Your mercy
You woo me with Your love
You embrace me in Your Presence

In the stillness of my heart I hear You whisper
In Your everlasting light I hear You call
When I begin to listen
That's when I begin to hear
When I am still, I know that You are God

When everything is noisy
When everything is rushed
It becomes so hard to hear
I feel like I'm a hostage
On this spinning, sinning world
But deep within my heart I long for You

Chorus

...When I begin to listen
That's when I begin to hear
When I am still I know that You are God
