

WITH EVERY BREATH

Words & Music by Tom Demaree

You're the wind, blowin' across my heart
Sweet rain, pourin' from heaven
You're the Fire, that lights my way forever
My hope, with every breath I take

With every breath I take, You are my hope
With every song I sing, You are my everything
You washed me clean, when I was only filthy rags
And gave me hope, with every breath I take

You're the peace, that passes understanding
A still small voice, that whispers to my heart
You're the Fire, that lights my way forever
My hope, with every breath I take

You are my Rock
My Refuge in the darkest storm
You are my hope, with every breath I take
