Lew Graham has been exhibiting paintings and three-dimensional works, as well as installation art, for over 25 years. Her work is included in numerous private and corporate collections. Complete exhibition history on request.

About My Work

My recent paintings are in the medium of encaustic, a wax paint which permits great luminosity and depth. Their primary format is a grid inset with panes of color, or a grid superimposed upon natural images. My intention is to create an experience of depth; I want the viewer to “enter” my pieces and engage with them.
