

# Gospel for Life June 2011

## High School and College Students hear the Gospel at GFL Evangelistic Studies.

In today's age of skepticism, friendship evangelism is a perfect vehicle for the gospel. We're delighted that unbelievers are attending these studies on a regular basis. Christians can gain gospel opportunities when they form friendships with unbelievers. An evening of hospitality and evangelism is an ideal way to share the claims of Christ. Our studies are held at the home of Jay and Michele Wegter and the home of Ethan Espinosa and his family. Please email Jay for times and days. [jaywegter@gmail.com](mailto:jaywegter@gmail.com)

## GFL collaborates with Bay Area Apologetics Ministry

Jay's friend Tim Oliver of Fremont, California, recently organized an evening where Jay could speak on "The Vastness of Christ" from Colossians chapter one. People attended from a number of Bay Area churches. Tim Oliver's expertise in producing Christian media is very evident in the video of Jay's talk. Here is the link:

## Dynamics of Grace College Retreat in the Sierras

At our camp, college and singles will be challenged to live by the gospel. We will be exploring together the ‘Dynamics of Grace’ in order to bring the work of Christ into everyday life. When believers learn to *preach the gospel to themselves*, they exhibit a passion for God’s glory and they develop the spiritual maturity necessary to serve with joy in the body of Christ.

Here is a recent reaction to the teaching on Grace-driven Sanctification: “*The teaching on the Dynamics of Grace is REALLY impacting my walk in a major way! Everything I have been learning is opening my eyes SO much. I am really blown away. I think every new believer should be studying this content. I can’t believe I’ve gone almost 8 years in my walk without a deep understanding of all this! Thank you so much.*”

*Thank you so much for your prayers and support!*
