

Position Description: Summer Internship – New York, NY

Broadscale Group is an investment and advisory firm that works to scale up the most promising new, market-ready solutions in areas such as cleaner energy, smart buildings, and advanced mobility. We manage a Network of some of the world's largest energy and industrial companies and provide them opportunities to form commercialization partnerships with and/or invest in strategically aligned growth companies. In turn, we provide growth-stage companies with streamlined access to strategic sources of capital, distribution, and demand. As an entrepreneurial firm ourselves, we offer the opportunity to be part of a small team that is working closely with leaders in both the corporate and startup worlds to find new ways to collaborate, innovate, and achieve impactful results for society.

Summary of Position

We are looking for an Intern to work with us this Summer for at least 2-5 days per week. This individual will have the opportunity to support a variety of activities, ranging from market research to financial/business model analysis. The ideal candidate will have interest in energy and clean technology and be enrolled in a bachelor's or master's program in a related field.

Skills and Qualifications

- Interest in the clean energy and technology space
- Currently enrolled in a bachelors or masters program in relevant field
- Some previous work/internship experience
- Ability to be a proactive team player in a fast-paced, entrepreneurial setting
- Strong communication skills

Position Location

New York, NY (Midtown East)

Position Type

Unpaid internship. Minimum of 2 days per week. Stipend or Academic Credit may be available.

Please submit a resume to info@broadscale.com. No calls please.
