THE HAPPIEST HOUR AT HOLIDAY HOUSE 2016

Share this Story:

We are excited to report that Baldwin Hardware Design Council Member, Tina Ramchandani, showed off her talents by participating in this year's **Holiday House** taking place at the Sullivan Mansions in Soho – an annual, one-of-a-kind design opportunity that benefits **The Breast Cancer Research Foundation**. Ramchandani first designed a space for Holiday House three years ago, when it was on the Upper East Side at the Academy Mansion. This year, she was tasked to plan and execute a complete redesign of the Master Suite in just 10 days – a feat unheard of in the industry. Her theme? Everyone's favorite time of the day - The Happiest Hour.

Ramchandani created a picturesque lounge abounding with cool, dark tones and a mysterious sense of wonder. The entire room was flooded with beautiful imagery, exquisite furniture and other noteworthy pieces to bring visitors a sense of cool, calm, collectiveness. Baldwin was excited to help Ramchandani bring her vision to life in the form of our signature line of coveted door hardware, specifically Baldwin's egg knobs on all doors and couture cabinet knobs on the bathroom vanity.

The house is open through January 8th, Tuesday – Sunday from 11am-5pm with extended hours on Thursday. For more information, visit <http://lifeinsketch.com/2016/11/happiest-hour-holiday-house-2016/>.
