

Resolution on Building RWU Chapters

Whereas, Railroad Workers United's goal is the building of solidarity, unity and democracy within and between the rail unions of North America; and

Whereas, this is the dream and the vision of thousands of rank-and-file rail workers across the continent; and

Whereas, the greatest potential for RWU lies in local areas where a diversity of rail workers live and work; and

Whereas, RWU will be proven by the day-to-day actions of the organization "on the ground" and by its ability to achieve the stated goals of building unity, democracy and solidarity;

Therefore, Be it Resolved, that Railroad Workers United (RWU) at its Founding Convention in Dearborn, Michigan, April 11, 2008 commit to building RWU Chapters across North America; and

Be in Further Resolved that the RWU ISC will make financial resources available to organizing and building such Chapters as and when they permit; and

Be it Finally Resolved that RWU encourages all RWU members to work towards building viable and active RWU Chapters where they work.

The above Resolution was adopted by those members assembled at the RWU Convention, April 11, 2008.
