The Palm Society of Southern California (PSSC) is a non-profit affiliate of the International Palm Society, Inc. and is dedicated to the hobby of growing palms in southern California. Its mission is to promote palm education including cultivation, care, development, propagation, conservation, research and promotion of palms.

The Palm Journal is published by the Palm Society of Southern California. All members are encouraged to submit manuscripts, photographs and ideas to the editor. See page 52.

Opinions expressed are those of the authors. We assume no responsibility for the content or claims of our advertisers.
