

Jonathan Field

Design Shanghai

27 – 30 March, 2015

Jonathan Field will be exhibiting within the Contemporary section of Design Shanghai which runs from 20th -22nd May. Stand C2-200.

Design Shanghai is China's leading international design event. In 2014, Design Shanghai opened its doors to over 47,000 visitors, breaking new ground and setting a precedent in China's ever-growing design community. Showcasing the best design brands from across the globe, Design Shanghai provides a unique and exciting platform to network and establish long-term business relations with China's top architects, interior designers, developers, facilities managers and private buyers.

Having studied art at college Field originally worked as an artist and freelance illustrator. In 1995 he rediscovered his love of furniture and began selling his work through important design shops such as Heal's and Conran.

Field now only makes bespoke pieces of furniture from carefully selected pieces of timber. He is strongly influenced by his childhood in East Yorkshire, with its flat, open and textured landscapes, coastal areas with sparse horizontal lines of dykes and wind blasted trees, and large expanses of sky. When designing and making each piece, he translates the wood's natural beauty and presence into furniture that has a sculptural and tactile quality.

Each unique piece of furniture is made by hand and initialled with JF.
