### Orlando World Center Marriott Resort

Orlando, FL

This project consisted of a complete re-roofing of all roofs in the complex. The roof areas cover over 470,000 square feet and have 87 different levels. A new BondCote Thermoplastic Ballasted single-ply roof system was installed. Multi-colored ballast rock was used as designed by Marriott for a pleasing, aesthetically appearance from above.

### Hilton St. Louis Downtown

St. Louis, MO

This project consisted of a complete façade restoration which included replacing the defective sealant joints in the wall system and the perimeters of the openings. Pedestrian decks were coated with Neogard Urethane Deck Coating. All weather protected areas were coated with acrylic paint. The roofs were replaced with BondCote Thermoplastic single-ply membrane. These roofs were warranted for 10 years.
