March 2008

Commercial and Hotel

**Mississippi Coast Coliseum
Biloxi, MS**

When it came time for the SPF roof of the Mississippi Coast Coliseum in Biloxi to be replaced from the damage of Hurricane Katrina, the owner's representative had one request - they wanted the same system that was recently installed on the Superdome. The existing silicone roof had weathered the storm but after 26 years it was time for a face lift. NEOGARD representative Harvey Cooper assisted the architectural firm of Guild Hardy with the PERMATHANE™ II FR specification of the 100,000+ square foot domed arena. Fighting adverse weather conditions and a progressive entertainment schedule at the facility, Coatings Application and Waterproofing Co. of St. Louis, MO delivered a superior job as they have over the last 27 years as one of NEOGARD's top applicators.

Wall Coatings

Planter Restoration

The Ritz-Carlton Coconut Grove, Miami, FL

Overlooking Biscayne Bay and the Miami Skyline, the smallest of Miami's Ritz-Carlton hotels is the most intimate of its properties and is surrounded by 2 acres of tropical gardens. Coatings Application and Waterproofing, Co., headquartered in St. Louis, MO., was awarded the contract to refresh the existing metal roofing system with a high performance coating system.

Their solution was to use a product from the JONES-BLAIR Industrial Division, ACRYLITHANE™, a high performance, two component coating for use where appearance, durability, color and gloss retention and corrosion resistance are paramount.

Jim Rist, NEOGARD's Regional Roofing Manager for the Florida area said: "This job by CAW turned out GREAT!"
