5125 N 2nd Street
St. Louis, MO 63147

Dear Mr. Reed,

As a property manager I have had to deal with numerous contractors and project interference by unit owners which makes for a stressful situation for all involved.

Due to the professionalism of the Billy Williams crew, most of the stress was eliminated. They were courteous and respectful with their dealings with the office as well as the residents. The project was done with safety and cleanliness in mind and was completed in a timely manner with very few problems.

CAW did a tremendous job on our roofs and I look forward to many future dealings with your company. I have recommended CAW to other property managers as well as to other associations.

Sincerely,

Susan Long
Property Manager
