Missouri-Kansas Education Policy Fellowship Program

The Education Policy Fellowship Program (EPFP) is a professional development program for individuals whose work record reflects strong leadership abilities and a concern for issues important to children and education.

Participants in the Fellowship Program hold full-time positions in diverse organizations at the local, state, and national levels.

The program is available in Missouri-Kansas through the Local Investment Commission (LINC) and Cooperating School Districts of Greater Kansas City. The nationally recognized EPFP was established more than 50 years ago by the Institute for Educational Leadership (IEL) in Washington, D.C. IEL continues to support the program in the District of Columbia and through its network of state affiliates.

How is the EPFP different from other professional development programs?

EPFP is supported by a national and state network of resource people and peers who have a track record of accomplishment in research, policy development, and effective practice in education, child development, and human services.

The EPFP provides a comprehensive approach to knowledge and skill-building with nine monthly seminars in Kansas City and one national policy seminar during a ten-month period.

The 2016-2017 EPFP program included a visit to the Harry S. Truman Presidential Library, where fellows participated in a simulation at the White House Decision Center.
