

## DUE DILIGENCE REVIEW REPORT

A due diligence review has been completed by the Executive Director and Board of Director's Chairperson for all of the staff hired at Fresh Aire Samaritan Counseling Center. Each of the staff members have been found to be in good standing professionally and practicing within the scope of their competency as marked by their state licensure and/or certification, training and supervision. In addition, each staff member, to our knowledge is operating within the boundary and ethical standards of their credentialing and training and do not currently have any ethical complaints lodged against them. Each of the counselors employed are receiving supervision and continuing education appropriate to their licensure and to their training and experience.
