

FOR IMMEDIATE RELEASE:

Rhythm X Introduces Weekly Video Series, eXtra Access

DAYTON, Ohio (December 18, 2013) - Today Rhythm X announced a one-of-a-kind behind the scenes series called eXtra Access and presented by instrument manufacturer and suppliers Pearl and Adams. The series, which will air each week on Wednesdays, will feature exclusive behind the scenes footage of rehearsals and performances.

In addition to announcing the series, Rhythm X has launched a new website that will host the show. Viewers can access every episode through-out the X14 season there. The site can be found at rhythmx.org/extraaccess and is available free to the public starting today.

"At Rhythm X our goal isn't an internal one. We're working hard every day to ensure that Rhythm X is an icon in our community and has an impact on our activity. Our friends at Pearl/Adams are helping us increase that voice and bring a part of the X14 experience to everyone," said Mike Scott, Operations Director of the organization.

Rhythm X is the current Winter Guard International World Class Champion after winning the WGI World Championships in late April. The ensemble is currently in the beginning of its 2014 rehearsal season. Rhythm X will return to competition in the Mid-East Performance Association and Winter Guard International circuits in February.
