

A project of Covenant Trust

DIPLOMA OF PRACTICAL ENTREPRENEURSHIP

has undertaken an impactful, extensive study program on international entrepreneurship consisting of eight lectures in a group setting and has received live copies of each lecture for future reference together with other study material.

In undertaking these studies, a further commitment has been made to become involved in the largest economic crusade in the history of the Christian Church to propagate the Gospel of Jesus Christ throughout the entire world. The participant, along with an economic army of one million other Christian business owners, will collectively fund into their local church over 200 billion dollars for evangelism by the year 2025.
