

JOB POSTING: Environmental Field Technician

Job Description:

Growing environmental consulting firm seeks full-time field technician. Candidates should be ambitious, independent and reliable. Duties include asbestos project monitoring, asbestos inspections and assistance with Indoor Air Quality (IAQ) audits, mold Inspections and Industrial Hygiene sampling.

Successful candidates should be physically able to lift heavy objects (50 pounds), as well as able to climb ladders and enter crawlspaces and attics to perform job duties.

This is a full-time position with wages commensurate with experience. Occasional evening, weekend and holiday work required. Green Environmental Consulting, Inc (GEC) is an equal opportunity employer.

Desired Skills & Experience:

Asbestos experience and/or certifications a plus
Two years of college credit or an associate or technical degree
Strong computer skills including ability to work remotely
Health and safety experience
Understanding of building science
Database experience including experience using FileMaker Pro software

Company Description:

Green Environmental Consulting, Inc is an environmental consulting specializing in asbestos, indoor air quality and mold services. With a rapidly increasing client base and excellent reputation, GEC is looking to expand it's operations.
