

NEW!

ROTO-SPLIT® RS-101B AUTO CLAMPING MC CABLE CUTTER

RS-101B with auto clamping adjusts to the diameter of the cable, no levers or screws to set!
Patent Pending

PROUDLY
MADE IN U.S.A.

NEW ROTO-SPLIT® WITH AUTO CLAMPING!

Seatek's latest model in the **Roto-Split** line is equipped with an exclusive **auto-clamping feature**. The **RS-101B** has a clever clamping system which covers the complete cable size range **automatically**. Just squeeze the lever & any cable from **14-2 to 10-4 or 3/8" Flex** is secured, **no thumb screws** to set! This new patent pending system prevents applying **too much force** to aluminum casing. Blade penetration is set at the factory to prevent nicking of wires in BX/MC cable.

SAVE TIME & IMPROVE SAFETY!

A few turns of the crank makes a clean slit through armored casing. **This takes only a few seconds, simply untwist to strip!** Cutting is safe & does not damage wires due to the **depth of cut stop**. The **Roto-Split** also spells the **end to nicked fingers & cut knees**. The open channel construction pioneered by Seatek allows cutting in the middle of a roll. **Simplicity at its best!**

Just position any size cable in the channel, squeeze and turn the blade handle... That's it, no thumbscrew adjustments required. Best of all the cable pops out as soon as a cut is completed.

- **RS-101B** allows you to **safely** cut any type of armored cable by **automatically adjusting to the cable OD**.
- Make **cuts in tight quarters!** Simply ratchet the handle back & forth when you're in a tight spot.
- Quickly change the blade with an adjustable wrench thanks to an **accessible, easy to remove** hex nut.
- Self-tightening blade system and **ergonomic crank handle** with offset for maximum hand clearance.
- **Storage cartridge in knob** with room for 6 blades.
- Handsome die cast epoxy enameled body. Overall a tool oozing with quality and smart engineering.

***Guaranty:** The made in America ROTO-SPLIT® has a lifetime guaranty against defects. Any parts (except the circular cutter) will be repaired or replaced free; you pay only the one way shipping charge.*
