

**NEW!**

# ROTO-SPLIT® RS-101AC AUTO CLAMPING MC CABLE CUTTER

RS-101AC with depth of cut lever  
to switch between standard  
and small diameter MC cable

Patent Pending

MADE IN U.S.A.

## NEW ROTO-SPLIT® WITH AUTO CLAMPING!

Seatek is introducing a new model in the Roto-Split line equipped with an exclusive **auto clamping feature**. This MC cutter has a clever clamping system which covers the complete cable size range **without the need to fuss with a thumb screw**. Just squeeze the bottom lever & any cable from **14-2 to 10-4 or 3/8" Flex** is secured, no adjustment is required!

This new patent pending system prevents applying **too much force** to aluminum casing. The **RS-101AC** also has a **depth of cut adjustment lever** which switches between **standard MC** & new brands of **reduced diameter MC** such as **Southwire MC<sup>AP</sup>** cable.

## SAVE TIME & IMPROVE SAFETY!

A few turns of the crank makes a clean slit through armored casing. **This takes only a few seconds, simply untwist to strip!** Cutting is safe & does not damage wires due to the unique built-in **2 position depth of cut stop**. The **Roto-Split** also spells the **end to nicked fingers & cut knees**. The open channel construction pioneered by Seatek allows cutting in the middle of a roll. **Simplicity at its best!**

*Just position any size cable in the channel, squeeze and turn the blade handle...That's it, no thumbscrew adjustments required. Best of all the cable pops out as soon as a cut is completed.*

- **RS-101AC** allows you to **safely** cut any type of armored cable by simply **changing the depth of cut**.
- Make **cuts in tight quarters!** Simply ratchet the handle back & forth when you're in a tight spot.
- Quickly change the blade with an adjustable wrench thanks to an **accessible, easy to remove** hex nut.
- Self-tightening blade system and **ergonomic crank handle** with offset for maximum hand clearance.
- **Storage cartridge in knob** with room for 6 blades.
- Handsome die cast epoxy enameled body. Overall a tool oozing with quality and smart engineering.

**Guaranty:** The ROTO-SPLIT® has a lifetime guaranty against defects. Any parts (except the circular cutter) will be repaired or replaced free; you pay only the one way shipping charge.

**SATISFACTION GUARANTEED OR YOUR MONEY BACK!**

**A SMALL COMPANY WITH BIG IDEAS!®**
