## SAVE TIME! CUT LABOR! ENHANCE SAFETY!

A few turns of the crank of this compact tool produces a clean slit through armored casing. Simply untwist to strip! This operation takes only a few seconds. It is absolutely safe and does not damage the wires inside due to the unique built-in depth of cut stop, no need to finagle with an adjustment screw! The **Roto-Flex®** spells the end to nicked fingers and cut knees. The open channel construction pioneered by Seatek allows cutting in the middle of a roll. Simplicity at its best!

## CARRY IT ANYWHERE!

This rugged tool can be carried in your belt pouch or in your hip pocket like a pair of pliers. Always ready when you need it, even on top of a ladder or in hard to reach places.
