

# "The Jacket Ripper"

Cat. #JR-128

## NEW FROM SEATEK - A Back to Basics Tool

### SPEED UP INSTALLATIONS!

The **JR-128 Jacket Ripper** is an easy to use straightforward tool - **your tool pouch shouldn't be without one!** Don't use a knife or open ended razor blade to **strip large diameter cables** such as service entrance, instead use the compact **Jacket Ripper**. Hook the front portion of the blade between the wires and the jacket. **Pull on the comfort grip handle to strip to the cable to desired length.** Peel back and clip off the jacket with a diagonal pliers. The **JR-128** is much easier to use than a knife and it is also safer and faster!

*LIMITED WARRANTY: The JR-128 (except for the blade) is warranted to be free from defects in workmanship and material for 90 days from date of original purchase.*

### CUT COSTS ! PROMOTE SAFETY !

- **The Better Way** to remove the jacket of medium & large multi conductor cables
- Use on **entrance cable, plenum**, phone, multi-pair & tray cables. Even strip jackets from some liquid-tight, flex or MC!
- **Prevents nicking** of internal conductors
- **Blade can be easily replaced**, simply remove the two screws holding the blade and install a new blade **Cat. B-228**
- Lightweight at 3 ounces, length 5-1/2", body is nickel plated steel
- Safety cap included
