

RSK-185 ROTO-SKINNER

RSK-185 ROTO-SKINNER With Abrasive Wheel

**For ROV, Steel Jacketed &
Armored Cables
Cuts 1" to 2-1/2" O.D.
(12 mm to 65 mm)**

The patent pending **RSK-185** is a new battery powered tool that safely ring-cuts a multitude of armored cables, including those made of hardened steel. By using an abrasive wheel with a unique clamping system the RSK-185 can quickly remove hardened jackets that no other tool can!

WORK SMARTER, NOT HARDER!

The **RSK-185** is powered by a battery operated grinder: simply rotate the **Roto-Skinner** 360° around a cable to make perfect ring-cuts on plastic & metal clad cables. Depth of cut can easily be set with a micrometer. When cutting jackets the depth of cut is incrementally increased after each turn around the cable until the correct depth of cut is precisely reached.

PROMOTE SAFETY!

The **Roto-Skinner** is ideal for use in damp locations because it is cordless. The cable guide holds part securely as you strip and the cutting wheel is fully enclosed. Plus there's no line cord - you have total freedom of movement and portability.

PRECISION DEPTH OF CUT!

A specially designed pre-set concentric stop, coupled with the abrasive wheel penetrating mechanism allows the operator to safely reach the proper depth of cut stop. The depth of cut is set with a gauge attached to the tool wheel platen and is specific to each cable's depth of cut.

- **Ring-Cut** cables from 1" to 2-1/2" OD or 12 mm to 65 mm.
- Cut cables that normally can not be cut with standard blades such as **umbilical cables** used on ROV vehicles (remotely operated underwater vehicles)
- Toggle clamps makes it **easy to fasten and remove** the tool from cables
- Uses 4-1/2" X .045" grinding wheels
- **Circular handle** to guide tool around cable
- Synchronized upper and lower limit stop for **accurate wheel positioning and repeatability**.
- Concentric depth of cut adjustment for **blade wear compensation**.
- **Maximum depth of cut 3/8" or 9 mm.**

LIMITED WARRANTY

The Roto-Skinner has a limited warranty against defects of material or workmanship for 90 days excluding the battery pack, charger and circular cutter.

Specifications:

- **RSK-185** Utilizes industrial cordless 18V grinder
- Maximum depth of cut 3/8" (9.5 mm)
- Weight: 11.75 lbs with battery
- Lithium-Ion Battery: 18V - 3.0Ah.
- **B-158** Replacement grinding wheel

	RSK-185	KIT INCLUDES 2 BATTERIES, CHARGER & STANDARD LIGHT DUTY CASE
	B-158	BLADE FOR RSK-185
	BP-155	18V LITHIUM-ION BATTERY
	C-155	18V LITHIUM-ION BATTERY CHARGER
	TC-151	STANDARD LIGHT-DUTY CASE
	TC-152	HEAVY-DUTY WATERTIGHT CASE
