

NEW!

RSK-185 ROTO-SKINNER with ABRASIVE WHEEL For ROV, Steel Jacketed & Armored Cables

Patent Pending

RSK-185 ROTO-SKINNER

The patent pending **RSK-185** is a new battery powered tool that safely ring-cuts a multitude of armored cables, including those made of hardened steel. By using an abrasive wheel with a unique clamping system the RSK-185 can quickly remove hardened jackets that no other tool can!

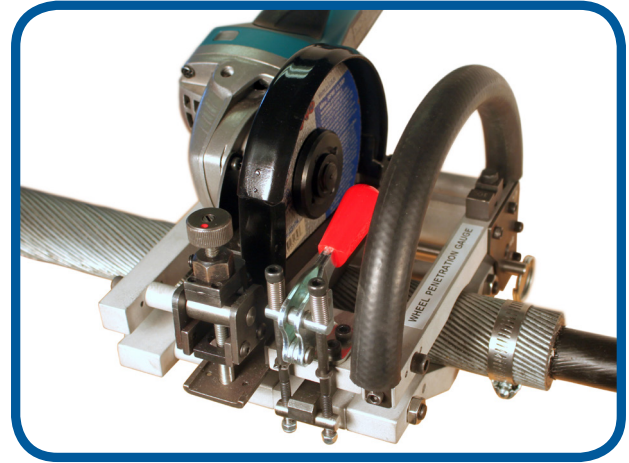

WORK SMARTER, NOT HARDER!

The **RSK-185** is powered by a battery operated grinder: simply rotate the **Roto-Skinner** 360° around a cable to make perfect ring-cuts on plastic & metal clad cables. Depth of cut can easily be set with a micrometer. When cutting jackets the depth of cut is incrementally increased after each turn around the cable until the correct depth of cut is precisely reached.

- Cut cables that normally can not be cut with standard blades such as **umbilical cables** used on ROV vehicles (remotely operated underwater vehicles)
- Toggle clamps makes it **easy to fasten and remove** the tool from cables
- Uses 4-1/2" X .045" grinding wheels
- **Circular handle** to guide tool around cable
- Synchronized upper and lower limit stop for **accurate wheel positioning and repeatability**.
- Concentric depth of cut adjustment for **blade wear compensation**.
- **Maximum depth of cut 3/8" or 9 mm.**

Specifications:

- **RSK-185** Utilizes industrial cordless 18V grinder
- Maximum depth of cut 3/8" (9.5 mm)
- Weight: 11.75lbs with battery
- Lithium-Ion Battery: 18V - 3.0Ah.
- **B-158** Replacement grinding wheel

PROMOTE SAFETY!

The **Roto-Skinner** is ideal for use in **damp locations** because it is cordless. The cable guide holds part securely as you strip and the cutting wheel is fully enclosed. Plus there's no line cord - you have total freedom of movement and portability.

PRECISION DEPTH OF CUT!

A specially designed pre-set concentric stop, coupled with the abrasive wheel penetrating mechanism allows the operator to safely reach the proper depth of cut stop. The depth of cut is set with a gauge attached to the tool wheel platen and is specific to each cable's depth of cut.

LIMITED WARRANTY

The Roto-Skinner has a limited warranty against defects of material or workmanship for 90 days excluding the battery pack, charger and circular cutter.

	RSK-185	KIT INCLUDES 2 BATTERIES, CHARGER & STANDARD LIGHT DUTY CASE
	B-158	BLADE FOR RSK-185
	BP-155	18V LITHIUM-ION BATTERY
	C-155	18V LITHIUM-ION BATTERY CHARGER
	TC-151	STANDARD LIGHT-DUTY CASE
	TC-152	HEAVY-DUTY WATERTIGHT CASE
