4TH STREET REVITALIZATION PLAN

WEEKLY UPDATE

April 18, 2017

Construction is progressing with the Albuquerque Bernalillo County Water Utility Authority (ABCWUA) contractor, Century Club Construction. Construction is scheduled to be completed within the next week along the West side of 4th Street. Traffic control barricades will begin to be placed this week for the start of construction on the East side waterline. Century Club Construction plans to bring on an additional crew to catch up on the schedule.

The contractor is maintaining one northbound and one southbound lane of traffic. Access to businesses, residences, and side streets will be maintained except for isolated closures.

The West waterline will undergo hydrostatic testing on Thursday, April 20, with potability tests following on Friday, April 21. ABCWUA is planning for service connection tie-ins for the north half of the West waterline on Wednesday night, April 26 from midnight-6am, and the south half of the West waterline on Thursday night, April 27 from midnight-6am. Service interruptions can be expected, the contractor will notify individual property owners with more detail.

We will continue to publish updates on a weekly basis.
