

Larry P. Abraham Agri-Nature Center Improvements

Utility Connections Complete/Rio Grande Blvd to Open Tomorrow

Bradbury Stamm Construction completed the water, sewer, and fire suppression line connections on schedule under the supervision of the Albuquerque Bernalillo County Water Utility Authority (ABCWUA). The roadway has been back filled, compacted, and paved to standard. Concrete collars have been installed on manholes requiring a concrete curing time through Friday morning, July 10th. The road will be striped and all traffic control devices will be removed by 5:00pm on Friday. No further traffic disruptions are anticipated due to this project.

The next construction phase is now underway with trenching for the utility lines along the southern boundary of the Agri-Nature Center. This phase will reach the point of tie in at the main building by July 20th. A contract was awarded to Bradbury Stamm in the amount of \$126,000.00 to complete the work by July 31, 2020.

Pavement restored at utility connections site.

Trenching utility line run on southern property boundary of Agri-Nature Center.
