To Whom It May Concern:

I wanted to assure you that Mr. Mark Newton, has requested my company to assist and to achieve ISO 9001:2008 certification for Oakville Quality Products LLC d.b.a. Bobken Automatics. The process has begun and should be completed prior to Q-2 2013.

Since Oakville Quality Products LLC d.b.a. Bobken Automatics has been quite an established company (1989), it goes without saying while others fall by the wayside they are still as vibrant as they were almost 23yrs ago. Their responsiveness and steadfastness to basic quality attributes (PLAN, DO, CHECK & ACT) along with "say what you do and do what you say" is exuded through the fabric and very core of this company.

The other item of notice is that I have dealt with many machine centers during my 30yrs of manufacturing and quality in medical, aerospace, industrial, electrical and printing companies. I understand the procedures and requirements of these aforementioned industries. That being said. Mark is striving to take Oakville Quality Products LLC d.b.a. Bobken Automatics to the next level with ISO certification! Please look me up (www.dguberman.com). You can rest assure that it is not just assisting Mr. Newton with certification, but also from the technical position within the quality arena supporting Oakville Quality Products LLC d.b.a. Bobken Automatics. If you have any questions please feel free to contact me (daryltqrs@yahoo.com)

Sincerely,

Daryl Guberman
