

Hi Colin!

I wanted to take the time to say thank you for your support, patience and the recommendation you wrote for me. I really appreciate everything you have done for me. I'm really going to miss Scully this summer.

I truly believe though that if I hadn't worked at Scully this past summer I wouldn't have gotten the internship at Blue Mt. Before I came to Scully I had almost no confidence in myself and my skills. My professor had expressed his concerns to me before the summer because if I didn't have the confidence I wouldn't be able to be the guide at Blue.

I didn't realize how much I changed and how much my confidence had grown until my professor brought it up in my interview. My interview lasted 10 minutes and my professor told me he had no reservations about me being up on top of Blue. It's amazing what a summer can do! All of the training and support I gained from being at Scully is going to help me this summer and it's going to fuel my project and the book I'm working on.

I know some people might not understand how camp changes people, they may feel the same at the end of the summer, but you never know until you're faced with something you never thought you could do. I won't ever be able to show enough gratitude, but if there's anything else I can do to help Scully for the summer, please let me know! Thank you again.

May God bless you always.

Katie
