

SWEETWATER ISD TECHNOLOGY LOAN PROGRAM 2017 - 2018

WHY HAVE A TECH LOAN PROGRAM?

Learning results from the continuous dynamic interaction among students, teachers, parents and the extended community. SISD's Technology Loan Program exists to equip our students for the global environment, transform our classrooms by changing teachers from controllers of knowledge to facilitators of learning, and to incorporate world-class instructional tools into lessons that can engage students anytime and anywhere.

WHAT AM I RESPONSIBLE FOR?

- A \$50 deposit is due before receiving an Apple iPad, protective case, charger brick, and charger cable
- All loaned materials - which must be brought to school daily & maintained in good working condition without breakage or damage beyond normal wear
- Following the AUP & iPad User Agreement/Policy
- Any costs associated with replacing or repairing loaned property (complete replacement costs can be as high as \$325 if paying for all loaned materials)

WHAT ELSE DO I NEED TO KNOW?

- Tech Defender Insurance is available for purchase that covers most accidental damages. Cost is \$35 annually with no deductible or limit on the number of times the device can be sent in for repair. (Covers the iPad Device only)
- Repair/Replacement costs for loan program devices and accessories will be passed to the student at cost. In almost all instances, the insurance cost is much lower than actual repair costs associated with the devices.
- Students will return loaned property at the end of the school year for storage until the next school year. In some cases, a campus may allow students to keep devices over the summer for a fee.
- Upon withdrawal from Sweetwater ISD, the loan program deposit, minus any repair/missing equipment charges is refundable upon the return of all loaned property and submission of the deposit refund form.
- For a free internet filter on your home network, using default Family Shield Open DNS settings, check your router manual to determine how to change your DNS settings to: primary 208.67.222.123 & secondary 208.67.220.123

See Back Page for More Device Insurance Information

Sweetwater ISD has chosen Tech Defenders as the vendor of choice to provide protection to school issued iPads given to students and staff. Tech Defenders will protect and repair your iPad against all accidental damage, mechanical failures, drops, and more!

Open to both students and staff, the eduSURANCE protection plan is specifically geared to provide peace of mind for K-12 districts that utilize iPads in a learning environment. The eduSURANCE protection plan is, simply put, the most cost-effective protection plan on the market, and yet still provides industry leading benefits and coverage.

How you ask? Simple, we are in the repair business, not the insurance business.
