| 5 IT | 10 Reference room |

The design challenge for this project was to create an attractive space that not only functions as a corporate office for a high end furniture dealer, but one that also serves as a showroom to display the dealer's products in a functioning office environment. Included in the space is a twenty-person training room, a fully functioning kitchen and various architectural features to display specific products. The space required an intuitive layout to accommodate not only the business operations but also large corporate gatherings to showcase the company and the products they represent.

Project: Spectrum (A Herman Miller Dealer)
at King of Prussia Business Center

Client: Berwind

Location: King of Prussia, PA

Completed SF: 11,000

Use: B (Business)

Construction Cost: \$500,000

Completion Date: Fall 2006
