

## Operation Minerva Workshop Registration Preference

Dear Participant:

Now that your registration is complete please look over this list of afternoon workshops. Rate the workshop sessions from **1** being the one you **most want** to attend to 6 being your least preferred choice. Based on the submitted participant preferences and available spots each participant will be assigned three afternoon workshops on a "first come – first serve". You are encouraged to select workshops that you may not know a lot about as your top choices to increase your exposure to different employment opportunities in the STEM areas (Science, Technology, Engineering & Mathematics). Praxis reserves the right to assign participants to the workshops in order to achieve a balanced distribution.

Down load this form, indicate your preferences and email or fax it back to [praxis@praxismh.ca](mailto:praxis@praxismh.ca). When all students have submitted their choices we will email you a list of your assigned sessions.
