

Sponsorship Package

The **Kiwanis Southeast Alberta Regional Science Fair** sparks our local youth's interest in science by offering them a hands-on opportunity to explore the science behind areas they are interested in.

The Regional Science Fair experience helps our local youth build life-long skills, such as research, critical thinking, and delivering public presentations. Students gain new knowledge while having fun which makes for better learning.

Regional Science Fair participants have the chance to win great prizes and the opportunity to travel and compete at the Canada-Wide Science Fair. The Regional Science Fair is open to any student in Grades 4 through 12 in the Southeast Alberta region.

Together with the generous support of our sponsors the **Kiwanis Southeast Alberta Regional Science Fair** helps to build bright minds, bright futures, and contributes to a more innovative community as a whole.

The Regional Science Fair has a variety of sponsorship levels to consider (see below) so anyone can support. **Contributions are applied to costs associated with hosting the science fair, incentive prizes for top-finishing students, and support for regional winners attending the Canada-Wide Science Fair.**

In addition to helping out the regional community, there are also various benefits associated with each sponsorship level in support of the **Kiwanis Southeast Alberta Regional Science Fair**. Donations \$20 or more are eligible for a tax receipt.
