Adjustment for Rocky Coast Cardigan

Based on knitters feedback, it seemed Rocky Coast Cardigan could use a little more room in the yoke and upper arm circumference.

Here's how to achieve it:

Complete raglan inc rows as written through the end of page 37.

Work raglan increases on sleeves ONLY as follows:

Raglan Sleeve Inc Row (RS): K1, *work in patt as est to m, sm, k1, M1L, working additional reps of Cable Stitch patt as sts become available, work in patt as est to 1 st before m, M1R, k1, sm; rep from * once, work in patt as est to last st, k1.

Cont working cable patt as est, rep raglan sleeve inc row every RS row 3 more times.

End on row 2 (6, 2, 6, 2, 6, 2, 6) of cable patt.

186 (204, 222, 240, 258, 276, 294, 312) sts: 17 (19, 21, 23, 25, 27, 29, 31) for each front, 42 (46, 50,

54, 58, 62, 66, 70) sleeve sts, 68 (74, 80, 86, 92, 98, 104, 110) back sts. Continue with pattern on page 38.

Working these sleeve ONLY increase rows will give you 2 more inches of sleeve circumference and 1 1/2 more inches of yoke depth. Consider the schematic on page 39 to determine if this extra room will be necessary for you.
