

Notice of Public Hearing Regarding Proposed Water Rate Increase

The recent Cost of Service study indicates water revenues fall short of revenue requirements. In an effort to minimize larger future rate increases, staff recommends smaller annual incremental rate increases over the next four years. As a matter of course, the Board approved a special called meeting on June 6, 2017 at 5:00 p.m. at the Frankfort Plant Board Administration Building located at 151 Flynn Ave, Frankfort, Kentucky, 40601 for the purpose of conducting a public hearing to solicit oral or written comments.

The current and proposed rates for water services are:

	RATE	Existing Rate	Proposed Rate
