

## PROMS 2.0 Case Study Feedback

<b>Your name &amp; title</b>	<b>Daniel Conway</b>
<b>Organisation</b>	<b>Central Manchester Foundation Trust</b>
<b>What intervention(s) are you using PROMs for?</b>	<b>Prostate cancer Resection</b>
<b>Can you list some of the benefits you have experienced since implementing PROMs?</b>	<ol style="list-style-type: none"> <li><b>1. Better understanding of Prostate Patient Pathway</b></li> <li><b>2. Engagement with patients outside of clinical consultation</b></li> <li><b>3. Using electronic communication to collect and distribute information</b></li> <li><b>4. Improved understanding of appropriate scoring systems to monitor post-operative recovery</b></li> </ol>
<b>How did you and your team cope with adopting the PROMs system?</b>  <b>Please make reference to the training, implementation, support etc.</b>	<b>We benefitted from support of the central team (Amy)</b> <b>Some useful communication between Trust IT and Bluespier</b> <b>Regular meetings with other sites across the region have highlighted the benefits of using PROMS within other specialities eg. orthopaedic, trauma.</b>
<b>How did your patients cope with adopting the PROMs system?</b>	<b>Till now we have been using paper forms and uploading the data on the PROMS 2.0 database by hand. We have now acquired hand-held devices and we are hopeful that we would be able to use them with patients in the near future, as PROMS</b>

	<b>2.0 system has not improved over last months with being more user-friendly.</b>
<b>Have you experienced any cost savings since using PROMs? E.g a reduction in outpatient appointments.</b>	<b>No. At the moment, we have just started to collect PROMS 2.0 at 6 month in the pilot study.</b>
<b>Do you have any stats or data on this you can share?</b>	
<b>Any additional comments?</b>	<b>Thanks for the opportunity to get involved</b>
