SPECIFICATION GUIDE – CHROMA GLASS

Features

Chroma is a single presentation face glass product. Chroma has a cold applied coating to the rear face that can be supplied in almost any paint colour. Chroma can be glue fixed to any substrate using a neutral silicone. A variety of custom or standard patterns and design can be carved into the rear face.

Uses

Chroma is ideal for splashbacks where individual colour is a requirement. Chroma can be used in all high traffic areas and is ideal for cladding to feature walls including bathrooms.
