GREG GORMAN WORKSHOPS 2017

If you are a photo enthusiast, a dedicated amateur or an inquisitive professional, you can gain interesting insights and learn a lot from this well-known artist.

Since 2012 the Atelier Jungwirth team has been organizing European workshops with Greg Gorman amidst scenic surroundings in cool locations. In 2017 you can choose from Southern Styria, a castle north of Milan or Provence. You will spend five days in a small group and can enter into an intense dialogue with Greg Gorman. He will assist you in indoor and outdoor shoots in palaces steeped in history, in villas and other exterior locations. The honest criticism of the photos by the star photographer and the direct demonstration of his image optimization, which he gives daily based on the previous day's work, are particularly instructive. As regards content, in the workshops Greg Gorman deals with the areas which have made him famous – portrait photography and the nude. The participants learn the secrets of his lighting and can take photographs under his guidance. Selection of location, choice of model, analysis of model, treatment of light, natural or artificial light, colour, black and white, light and shade, perspectives, angles and positions, treatment of flawless bodies and also of normal, not quite so perfect bodies, picture analysis, optimization and image editing. Particularly exciting, above all, are the incidental conversations in which it is a matter of the many minor, unanswered questions – acquisition, marketing, customers, publishing houses, magazines, agencies, etc.

The dates

11th–15th June 2017, Southern Styria, Austria

18th–22nd June 2017, Milan, Italy

25th–29th June 2017, Provence, France

The workshops are conducted in English,
the number of participants is limited.

Registration and further information

Atelier Jungwirth, Opernring 12, 8010 Graz

T: +43/316/815505
