An architect sits down at her computer and draws the lines that will eventually form a solid, beautiful structure. In that same way, you can also sit down and begin to draw the lines that will eventually form the structure of the career you desire to pursue.

Start with a foundation and build your own future by learning how to **effectively search for a job to find and create your own career path.**

Participants will also be able to sign up for a separate one-on-one session with Wendy Miller.

Space is limited. Call (434) 872-0047 to register

This is the first of a series of career coaching seminars. Future seminars will explore how to build a resume that will be your marketing tool and how to become skilled at interviewing.
