AUTHORIZATION FOR CREMATION AND ORDER OF DISPOSITION

No cremation or interment shall take place until a written authority along with a completed Application and Permit for Disposition of Human Remains signed by the authorized representative(s) of the deceased have been given to the cemetery authority (Sections 10375 and 7100, Health & Safety Code). The undersigned requests and authorizes Blair's Direct Cremation & Burial Service, in accordance with and subject to its rules and regulations and the appropriate sections of the California Health and Safety Code, to cremate and process in a manner suitable for interment the remains of:

Further, you are hereby authorized and requested, subject to your rules and regulations, to make DISPOSITION OF THE CREMATED REMAINS of the above named decedent as follows:

Initial X _____
After securing the necessary permits, which I also authorize, I agree to hold Blair's Direct Cremation & Burial Service harmless from any liability on account of said authorization for disposition.

HEALTH AND SAFETY CODE SECTION 7100 - CUSTODY AND DUTY OF INTERMENT

"The right to control disposition of the remains of a deceased person, unless other directions have been given by the decedent, vests in, and the duty of interment and the liability for the reasonable cost of interment of such remains devolves upon the next of kin".

I CERTIFY THAT I AM THE (RELATIONSHIP): _____

(Printed Name) _____ Initial X _____

and legal next of kin pursuant to Section 7100, Health and Safety Code, State of California, or am a relative acting as agent for the next of kin, and it is my legal right to control the disposition of the remains of the decedent.

I/we expressly give permission for:

- 1) The cremation to take place including incidental or inadvertent commingling of the remains with residue of prior cremations (Section 7054.7 (a)(1), Health & Safety Code).
- 2) The processing of the cremated remains so that they are suitable for inurnment within a cremated remains container (Sections 7054.1, Health & Safety Code).
- 3) I/We hereby acknowledge that I/We are responsible for the removal of any jewelry or mementos from the deceased prior to cremation.
- 4) I/We understand that any jewelry or mementos of the deceased may be destroyed during the cremation process and may not be recoverable. Any material which is recovered shall be returned to the cremation remains container (Sections 7057, Health & Safety Code).
- 5) The Crematory shall accept only those human remains which are in a cremation container, as defined, which is labeled with the identity of the decedent (Sections 8345.5, Health & Safety Code).
- 6) The Crematory will accept for cremation only those caskets or containers which meet the definition of a cremation container as defined in Section 7006.5, Health and Safety Code.
- 7) In the event of their being more cremated remains than the container provided, or the urn which I/We have chosen, will hold, I/We direct Blair's Direct Cremation and Burial Service to place the balance of the cremated remains in a secondary container and have it attached to the primary container in accordance with Section 8345, Health & Safety Code.
- 8) The Crematory will not cremate any human remains which contain any type of implanted pacemaker, mechanical, radioactive or silicon device. In the event the remains of the deceased contain such a device, I/We hereby authorize Blair's Direct Cremation

and Burial Service, its agents and employees, to remove any such mechanical devices from the remains of the deceased prior to cremation, and dispose of such items in any lawful manner it deems appropriate.

Listed below are all implanted mechanical, radioactive and silicon devices which Blair's Direct Cremation and Burial Service is authorized to remove from the remains of the Deceased prior to cremation, and dispose of as indicated:

Description of implanted device: _____ Removed _____ Initial _____

I/we further acknowledge that "the human body burns with the casket, container, or other material in the cremation chamber. Some bone fragments are not combustible at the incineration temperature and as a result, remain in the cremation chamber. During the cremation, the contents of the chamber may be moved to facilitate incineration. The chamber is composed of ceramic or other material which disintegrates slightly during each cremation and the product of that disintegration is comingled with the cremated remains. Nearly all of the contents of the cremation chamber, consisting of the cremated remains, disintegrate chamber material, and small amounts of residue from previous cremations, are moved together and crushed , pulverized, or ground to facilitate inurnment or scattering. Some residue remains in the cracks, and uneven places of the chamber. Periodically, the accumulation of this residue is removed and interred in a dedicated cemetery property , or scattered at sea" (Section 7054.7 of the California Health & Safety Code).

I/we warrant that all statements and representations are true and correct and that I/we have read and understand all the provisions contained in this document. This is your authority to make disposition of the remains as above indicated, and I/we assume full responsibility for their identity whether or not I/we viewed the remains. In the event such remains have not been permanently interred or picked up by me or my agent for said purpose within one (1) year of the cremation date, Blair's Direct Cremation and Burial Service is authorized to inter or cause them to be interred in the cemetery. I/we hereby agree to protect and indemnify Blair's Direct Cremation and Burial Service, or its assigns, against any claims for damages arising out or resulting from the Cremation Authorization and Disposition, including legal fees, costs and expenses.
