Sequencing Samples:

- refer to the ACGT website (www.acgtcorp.com) for recommended sample submission quantities
- refer to the ACGT website (www.acgtcorp.com) for a list of universal primers available at no additional charge
- custom primers used for sequencing can be ordered on this form
- use 1 row per reaction

1. Provide vector name if applicable. Otherwise, indicate as PCR product
2. Provide primer concentration for custom primers synthesized externally; universal internal primers do not require concentration
3. Manufactured under a Quality System designed to meet the requirements of ISO 13485:2003. Additional charges may apply.

Select Data Delivery Options: All sequencing results are sent by email. (Please select only one option)

☐ ($5.00) Unedited Sequence Results [Chromatogram Trace]

☐ ($5.00) Unedited Sequence Results [Text + Chromatogram Trace]

☐ ($10.00) Edited Sequence Results [Text Data]

☐ ($10.00) Edited Sequence Results [Text Data + Chromatogram trace]

** No editing option available for GMP results.
