English (Native) • Spanish (Fluent)

## Education

### BFA Interior Architecture + Design

Academy of Art University, San Francisco, CA 2005 - 2010

## Experience

**JRM Construction** \_ VDC manager \_ New York City, NY \_ 2016 - present

As the head of virtual design & construction I am heavily involved in all matters related to VDC project implementation and have been fundamental in the Hudson Yards Retail Podium project development. Focusing on the collaboration between project scopes, schedules and intersections between MEP systems and high end finishes as well as tenant work.

**Tishman Construction** \_ bim coordination manager \_ New York City, NY \_ 2012 - 2016

In this branch of AECOM I work directly on the World Trade Center Retail construction project where I have coordinate complex MEP systems in T1, T2, T3, T4 and the transportation hub. I take in consideration deadlines, site conditions as well as design changes while communicating joint interests in this multi stakeholder project. Additional responsibilities include modeling, logistics plans and graphics as well as proposals for business development.

**Gratz Industries** \_ designer \_ Long Island City, NY \_ 2010 - 2012

As in-house designer of this custom architectural metal fabricator I was in charge of concept design, product design, construction documentation, client consultation, vendor interaction, photography, graphic design, marketing and brand identity among other tasks.

**Forrest Perkins** \_ Intern \_ San Francisco, CA \_ 2009 - 2010

As an intern for this hospitality interior design firm I developed relationships with vendors and product representatives, performed administrative duties, design boards and specification book preparation.
