We envision a world where the fundamental right to move is respected and appreciated by all. Our view is that all human beings are entitled to respect, documents, and a process through which to move, settle, and resettle in the world.

Pangea Organizers Lead Alongside Detained Immigrants and Exciting New Hires!

$40FOR40: Join Us in Supporting Detained Labor Strikers in California!
On April 25, 2022, immigrant workers detained in California started a labor strike to protest against living and working conditions at the two prison facilities run by the multibillion-dollar corporation GEO Group. Pangea organizers and attorneys represent and support these workers in their legal matters and in their demands for dignified treatment.

The undocumented workers are paid only $1 a day to clean facilities in deplorable hygiene conditions and are also subject to the exorbitant commissary and tax prices at both detention centers, Mesa Verde and Golden State Annex. Forty of these immigrants, organized and started a labor strike. They are each asking for $40 per month to support them during this difficult time, where many of them have to face retaliation.

Although this work program is in theory voluntary, individuals are punished if they refuse to work or if they protest, with punishments including being locked up in "the hole" -- a tiny, windowless, solitary segregation cell. Moreover, these detained immigrants have no choice but to work in order to buy basic necessities such as phone cards to call their loved ones or food at the detention center's store.

To put an end to these human rights abuses, organizations, including Pangea, and unions formed a Strike Support Committee to support the demands of these detained migrant workers.

**Why Pangea Has No Executive Director**

![Image of the Pangea Team on Our Annual Fun Day Retreat](image)

Pangea continues to be an increasingly horizontal organization, starting with its foundation of equal salaries for all staff 9 years ago.

In March 2020, Pangea dropped the use of executive titles altogether and formally became a nonprofit with no executive director! Our founder, Niloufar Khonsari, answers the question of why our nonprofit has no executive director in their recently published article in *NonProfit Quarterly*.

We Celebrated Pride Month with a Huge Victory!

This year we kicked off Pride Month with an asylum win for our client*: a trans woman, survivor, activist, and organizer!

At a young age, she participated as one of the leaders of an LGBTQ rights group. She organized protests to demand the release of a trans woman from jail, gave Know Your Rights trainings, and encouraged trans women to join her group's meetings.
This smart, powerful, and brilliant young warrior now has closure from the traumas that she endured. She can now move forward and peacefully live her life here in the United States.

**Detained Clients & Pangea Team Up with High School Students to Organize BIPOC Art Exhibit!**

This past March, students at Archie Williams High School in San Anselmo, California, organized their first annual art exhibit, uplifting BIPOC voices, visions, and dreams.

Pangea organizer, Eunice Hernandez Chenier, teamed up with the students to connect them with immigrant leaders detained at the Mesa Verde and Golden State Annex detention centers, with whom she has
been organizing since starting at Pangea over a year ago.

Through her leadership development meetings with the detained leaders, Eunice learned that they used art as a coping mechanism. When presented with the opportunity to share their art, five artists sent in several works to display at the exhibit.

**Almost all of the pieces were sold!**

Several of the detained leaders had never shared their art with anyone outside of their family or loved ones, and they felt empowered and inspired by the opportunity to share their works with the high school students.

*Proceeds went towards funding art scholarships at the request of the detained immigrant artists.*
At Pangea Legal Services we believe in fair and equal health access for all.

Many of our clients are granted asylum after having their reproductive and bodily rights violated abroad. The Supreme Court's decision to Overturn Roe v. Wade will restrict accessible health resources. Now, where will they and millions of childbearing people in the United States find sanctuary?

"As a racial justice organization, our fidelity is to our clients, not to the laws that oppress them." - East Bay Community Law Center’s Statement on the Supreme Court decision to overturn Roe v. Wade.

We stand with the statement from our partners at EBCLC.
