**PREPARE FOR IMMIGRATION REFORM**

## Prepare for Comprehensive Immigration Reform

**What is it?** A bill, S.744 has passed the Senate that includes a roadmap to citizenship for undocumented immigrants and other permanent changes to immigration law.

**When will it happen?** While this bill has passed the Senate, no one is certain when a similar bill will pass the House of Representatives. Our president and the “Gang of Eight” are dedicated to comprehensive immigration reform and hopefully this means that we will have meaningful change in the next year or so.

**Who does it affect?** The 11 million undocumented immigrants currently residing in the United States and their families.

**How do we apply?** There is NO way to apply for this yet. If the bill passes in Congress then the President will sign it into law and USCIS will tell everyone when to apply.

**REMEMBER:** There are no complete answers to these questions. This bill will change and the information in this pamphlet may change over time.
